About Me

Full-stack developer focused on scalable web platforms and API engineering. Hands-on experience with .NET 9/ASP.NET Core, Next.js/React, Angular, Node.js/TypeScript and FastAPI (Python). Strong foundation in relational databases (PostgreSQL, SQL Server, MySQL), Docker, and patterns like DDD and Clean Architecture.

Technical Skills

- C# & .NET 9 & ASP.NET Core
- Next.js & React & Angular & TypeScript
- Node.js & FastAPI (Python)
- PostgreSQL & SQL Server & MySQL
- REST APIs & JWT & Docker & Git

Methodologies & Principles
Scrum, Kanban, SOLID, Domain-Driven Design (DDD), Clean Architecture

---

Education

Technical Degree in Systems Development — ETEC Profª. Ilza Nascimento Pintus
Completed in Dec 2024
Programming fundamentals, databases, and agile practices.

Technologist in Multiplatform Software Development — FATEC Prof. Francisco Moura
In progress (expected 2027)
Software engineering, architecture, and web development.

Professional Experience

Software Development Intern — ACTI Consultoria | 09/2025 - Present

Development and maintenance of enterprise web systems with ASP.NET and Next.js, database integration and continuous refactoring. Delivered features in sprints, optimized queries/endpoints, and improved usability.

Highlighted Projects

AgileTracker (.NET 9, PostgreSQL)
Agile management platform with DDD-driven domain modeling, JWT auth, and standardized API responses.
View on GitHub → https://github.com/AgileTracker/AgileTracker-Server

InboxIQ (FastAPI, OpenAI, Next.js)
AI email triage MVP with classification and suggested actions, production-ready architecture foundation.
View on GitHub → https://github.com/Leo-Slv/InboxIQ

Limnological Portal / ABP 2 DSM (React, Node.js, PostgreSQL)
Environmental data platform with filters, dashboards, and export capabilities.
View on GitHub → https://github.com/ExceptionH4ndlers/ABP_2DSM

Pedagogical Management (Node.js, TypeScript, PostgreSQL)
Academic ABP project for managing pedagogical workflows and information organization.
View on GitHub → https://github.com/ErrorSquad-ABP/Gerenciamento_Pedagogico-Server

ACTI Case (ASP.NET, Angular, SQL Server)
Full-stack partner management app with validations and layered architecture.
View on GitHub → https://github.com/Leo-Slv/ACTi-case

Certifications & Courses

- English Course - Intermediate Level — ICBEU (2017–2019)
- .NET & ASP.NET — Self-taught (2025–2026)
- Next.js & Angular — Self-taught (2025–2026)
- FastAPI & OpenAI — Self-taught (2026)

Additional Skills

Software Architecture: Domain-Driven Design, SOLID, Clean Architecture
Soft Skills: Teamwork, Communication, Problem-solving
