PROFESSIONAL EXPERIENCE

ACTi Tecnologia e Sistemas de Informação | Junior Software Developer | Mar 2026 - Present

- Development and maintenance of corporate web applications and ERP modules using ASP.NET Core, Next.js, Angular, VB.NET, and SQL Server.
- Implementation of REST APIs, stored procedures, and integrations across web applications, desktop ERP, MariaDB, and a field service application.
- Evolution of business rules, incident resolution, query and endpoint optimization, and code refactoring across service, inventory, billing, and finance modules.

ACTi Tecnologia e Sistemas de Informação | Software Development Intern | Sep 2025 - Feb 2026

- Worked on web application and ERP development and maintenance, supporting bug fixes, integrations, and sprint deliveries using Git and agile practices.

Quantum CRM | Full Stack Developer - Academic project with a real client | Mar 2026 - Jun 2026

- Client project developed for 1000 Valle Multimarcas using Next.js 16, NestJS 11, TypeScript, PostgreSQL, Prisma ORM, and Docker.
- Implemented authentication and RBAC, lead, customer, vehicle, and deal management, operational and analytics dashboards, and deployment on Vercel + Neon.

FEATURED PROJECTS

ArchFlow | .NET 9, Next.js 15, PostgreSQL, EF Core, and JWT | github.com/ArchFlowPlatform/ArchFlow-Server

- Agile management platform under development with projects, sprints, backlog, Kanban, and dashboards; layered API inspired by DDD, JWT authentication via HttpOnly cookie, and a feature-first frontend.

CourseCore | .NET 10, ASP.NET Core, PostgreSQL, EF Core, and JWT | github.com/Leo-Slv/CourseCore

- Modular API for a course platform covering users, permissions, courses, modules, lessons, and progress; Clean Architecture/DDD, rotating refresh tokens, Docker, CI, and automated tests.

ACTi Case | ASP.NET Core, Angular, SQL Server, and EF Core | github.com/Leo-Slv/ACTi-case

- Full-stack application for partner registration and management, with automatic CNPJ and postal-code lookups, Reactive Forms, validation, global exception handling, and OpenAPI documentation.

InboxIQ | FastAPI, Next.js, OpenAI, Docker, and AWS | github.com/Leo-Slv/InboxIQ

- MVP for intelligent email triage with classification, suggested replies, Gmail integration via OAuth 2.0, TXT/PDF processing, an NLP pipeline, rate limiting, and structured logging.
